

Meet the Editors Workshop – ISRE pre-conference July 26, 2017

Want to publish
your papers in
top emotion
journals?

A new initiative by ISRE's Early Career Researcher Section

With support from ISRE's President Arvid Kappas, we have set an exciting new ISRE 2017 pre-conference, the **Meet the Editors workshop** for early career researchers

The main aim is to create a win-win situation where early career researchers get insights into how to publish in top emotion journals and editors promote their journals and help in crafting and increasing quality of submitted work. This workshop will also provide networking opportunities between early career emotion researchers and will provide a platform through which editors can connect with potential future post-docs and reviewers.
